PENTELEDATA CAREERS

VOLUME 4 · ISSUE 12

December 2023

Dear Valued Customer,

As the year ends, I want to personally thank you for choosing PenTeleData for your business' connections. We wish you and your company the gift of success for 2024 and beyond, so if we can help with increased speeds, dedicated connections, phone services, or I.T. support, please don't hesitate to reach out.

On behalf of our entire staff, I wish you and yours a safe and happy holiday season.

Thank you for your business and continued support.

Jaime Mendes
Vice-President of Operations
PenTeleData

OUR FAST CONTEST

What is the fastest Men's mile world record, which was clocked in by Hicham El Guerrouj of Morocco on July 7, 1999?

One lucky winner will receive a \$150 Amazon gift card. Rack your brain and figure out the answer to the brain teaser. Then send us an e-mail with your full name, address, daytime telephone number (where we can contact you), and the answer to the brain teaser below, to chat@corp.ptd.net All entries must be received by 12/31/23.

Good Luck! PenTeleData

PENTELEDATA IS PROUD TO SERVE THE PANTHER VALLEY AREA

The Panther Valley School District serves parts of Carbon and Schuylkill County and is comprised of students from Summit Hill, Lansford, Coaldale, and Nesquehoning.

Summit Hill is a beautiful community located in Northeastern Pennsylvania, Carbon County. The elevation of Summit Hill is 1600 feet above sea level. The hilltop community was founded in 1791 by a hunter named Philip Ginder when he discovered Anthracite coal on Sharp Mountain, now called Summit Hill. Summit Hill is also known for being the birthplace of the Switchback gravity railroad. It was the first gravity railroad in the United States. The town of Lansford is located 12 miles from the popular tourist town of Jim Thorpe. The Valley, aka "Panther Valley," in which Lansford resides, was owned and subdivided into separate lots by the Lehigh Coal & Navigation Company which began development of structures in this area by 1827.

Lansford saw growth with the development of local anthracite coal mines. The origins of the "Molly Maguires" begin in this town. It was named after Asa Lansford Foster who was a known advocate for merging small towns that developed around these coal mines. Today, the No. 9 Coal Mine serves as the world's largest coal mine tour and attraction.

The beginning of Coaldale (Coal Dale) dates back to the year 1827, when John Moser and his wife settled there. Moser was born on May 24, 1805, in Tamaqua and was the son of Mr. and Mrs. Burkart Moser, the original settlers of Tamaqua. Upon arriving at Coaldale, John Moser built a log cabin on the north side of what was known as the Manila Grove Park. At present, the Coaldale Hospital is located on this very site. After building the cabin, Moser cleared the land for the purpose of raising products for his own use. His principal occupation was hauling coal and timber to Tamaqua. This continued until about 1887 when he vacated his farm due to the fact that a coal company possessed his land and began the building of a breaker for the purpose of preparing coal. This breaker was known as Number 12 and was owned by Lehigh Navigation & Coal Co. He made his next home with his grandson John Barrett and during his stay with his grandson he went into the dairy business. In the year 1888, he was appointed as the first tax collector of Rahn Township. Before becoming a borough, Coaldale belonged to Rahn Township.

WELCOME ABOARD!

We appreciate the opportunity to serve companies who have chosen to ride PenTeleData's Fiber Network.

Welcome aboard to:

- Penrac, LLC;
- Saucon Technologies;
- Valsoft Corporation Inc. DBA GbBIS;
- AES Clean Technology;
- and TW Cooper Insurance LLC

Merry Christmas
Happy New Year

Santa's list confirms it! PenTeleData has the best customers ever! We wish you a safe and happy holiday season and a Happy New Year!
Thank you for choosing PenTeleData.

 PenTeleData®

PROUD TO SERVE THE PANTHER VALLEY AREA (CONT.)

At that time, it included the area of Coal Dale, Owl Creek, Number Eleven, and Seek. In 1906, the prominent men of Coaldale held a meeting for the purpose of organizing a borough. The borough was organized in June of 1906.

Nesquehoning was established in 1974 after it had been previously part of Mauch Chunk Township. Its name is Native American, which has been translated to mean: "narrow valley" or "at the black lick," which was a reference to mineral licks frequently visited by local wildlife. It is also located 3 miles west of Jim Thorpe and 4 miles northeast of Lansford. It can be divided into four neighborhoods: Nesquehoning Village, New Columbus, Old Hauto and Lake Hauto. Like its other neighboring towns in Panther Valley, it was established as a result of the anthracite coal mining industry.

I.T. CORNER

Let Us Tackle Your Tech

We know that competitive edge doesn't just happen. You, your time, and your ideas make the difference. But what if you can't, or don't want to, juggle it all? We can help. PenTeleData I.T. Services will tackle your tech so you can focus on your business. Here are a few of the services we offer:

- > R.P.M. (Remote Proactive Management)
- > Multi-Factor Authentication
- > Local Area Network Design (LAN)
- > Wireless Networking
- > Services & Repairs
- > Structured Cable Installation Services
- > Layered Security Services
- > Managed Endpoint Detection and Response
- > CyberSecurity
